

FMPPro™ Google Maps Filter Enhancements

ACTON, Mass (March 2022) Digital Facilities Corporation (DFC) has released a set of program updates for FMPPro™ a specialized Building Envelope Management solution for comprehensive asset management of Roofing, Façade, Paving and Vertical transportation equipment.

FM-Pro™ is suited for building owners, asset area consultants and building service providers. This easy to deploy SaaS solution is ideal for maintaining annual observation reports, facility and building envelope assessments.

The latest release adds an enhanced filter selection to improve the viewing of facility and asset areas in the Google™ Map view by providing users with filter selections for numerous viewing options. This feature allows Maps to be tailored to the users viewing preference and provides easier viewing and access to drill down into detailed asset area data. The results can also be captured for inclusion in template reports. This new feature provides an additional map tool to help users focus on priority asset areas minimizing their management time and clients ease of access to FM-Pro asset information.

For a complete release bulletin and instructions on the new Google™ Map filter options users can go to program features for the complete release bulletin.
