

FMPro™ Work History Dynamic Viewing Option

ACTON, Mass (November 2022) Digital Facilities Corporation (DFC) has released a set of program updates for FMPro™ a specialized Building Envelope Management solution for comprehensive asset management of Roofing, Façade, Paving and Vertical transportation equipment.

FM-Pro™ is suited for building owners, asset area consultants and building service providers. This easy to deploy SaaS solution is ideal for maintaining annual observation reports, facility and building envelope assessments.

The latest release adds an option to view and edit notes associated with a recommendation or work history record. This feature is a valuable new viewing option with quick access to records. This feature allows users to quickly see the detail of the notes field without opening the record, and then if needed make any required edits. This new feature provides a time saving tool to help users quickly find and manage the priority asset areas, make any required edits minimizing their data entry time.

For a complete release bulletin and instructions on the Work History Dynamic Viewing Option users can go to program features for the complete release bulletin.
